

FORMED / *concrete basins*

WASTE FITTINGS

Our basins are designed to accommodate the majority of unslotted waste fittings on the market - large to small.

Note. These dimensions may vary slightly depending on the basin model design.

Installation.

- Place a bead of clear silicone / mastic around the waste opening before fitting your waste
- Do not over tighten the waste fitting as this can cause damage to the basin.
- Wipe away excess silicone / mastic immediately.
